THE KEY OF OUR BUSINESS, SERVING YOUR COMFORT

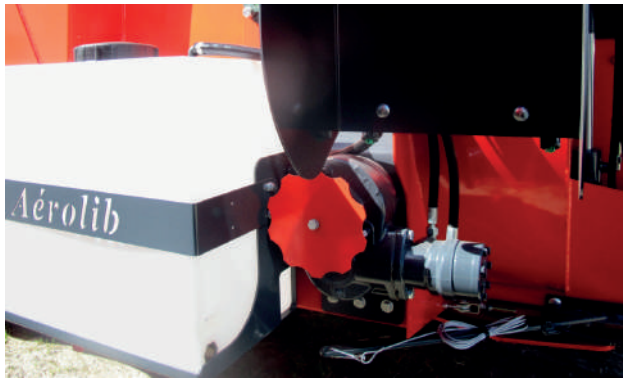

## AÉROLIB SYSTEM

### STRAW MISTER - EFFECTIVELY SEALS IN THE DUST DURING MULCHING

*Your health asset!*

A real health asset, the **AEROLIB** straw misting system is a simple and automatic solution that **considerably limits dust during mulching and regularly and homogeneously seeds the different beddings**. The flow rate of the system, which can be adjusted at will, allows the diffusion of a micro-mist of water which "plumets" the dust and immobilizes it on the ground, thus desaturating the atmosphere of the buildings during mulching.

**PROTECT YOUR HEALTH, YOUR LIVESTOCK'S AND PROTECT THE ENVIRONMENT!**

#### THE EUROMARK **AÉROLIB** SYSTEM:

- Reduces dust considerably and preserves the respiratory health of the breeder and his animals.
- By incorporating liquid solutions, it disinfects the litters, which improves the health and well-being of the livestock.
- Reduces pollutant emissions (composting by CMO microorganism complex).
- Makes supplementation possible during ration distribution.

**MULCHING WITHOUT AÉROLIB**      **MULCHING WITH AÉROLIB**

IMAGES IN REAL USE

### FEATURES

- Tank capacity of about 85L.
- Flow control by manometer - Standard nozzle output: 1l/min .
- ON/OFF from the tractor cab
- **This process does not lead to any change in humidity in the building..**

#### OPTIONAL EQUIPMENT AVAILABLE FOR :

##### **STRAW BLOWERS**

**TX27XL & BOOSTER 2D2,  
TX47-57-67-87-107XL, TX137-157-177XL**

##### **SILAGE FEEDERS - STRAW BLOWERS**

**TX30XL, TX49-59-69-89XL, TX59-69-89XL MIX**

##### **MIXERS AND STRAW BLOWERS**

**TX30XL, TX49-59-69-89XL, TX59-69-89XL MIX**
